REPORT on Hyper Tension Day

EKYA-Social Awareness Club initiative

World Hypertension Day is observed every year on May 17th to raise awareness and promote hypertension prevention, detection, and control. More than one billion people around the world live with hypertension (high blood pressure), which is a major cause of cardiovascular disease and premature death worldwide, and around half of people living with hypertension are unaware of their condition, putting them at risk of avoidable medical complications and death.

EKYA- Social Awareness Club organized a unique program” **Science and Tools of Wellbeing**” on 18th May 2024 to solve hypertension and other mental-related issues. Dr. Saketh Reddy is currently a senior research fellow at the Centre for Consciousness Studies, NIMHANS. His PhD was on understanding the impact of meditation on the brain. His research involved looking into the brain oscillations associated with meditation practice. He studied the impact of meditation on cognition, consciousness, and well-being using tools such as electroencephalography (EEG) and magnetic resonance imaging (MRI).

Dr. Saketh Reddy explained to the students how to live free of stress and thrive in whatever we do, how to be in a state of inner balance, and how to be joyful in any situation.

REPORT on International Family day

EKYA-Social Awareness Club initiative

The United Nations General Assembly, in its resolution 47/237 of 20 September 1993, proclaimed that **15 May** of every year shall be observed as the **International Day of Families**.

The United Nations states that "this annual observance reflects the importance which the international community attaches to families as basic units of society as well as its concern regarding their situation around the world. The International Day of Families provides an opportunity to promote awareness of issues relating to families as well as to promote appropriate action.

EKYA-Social Awareness Club organized an international family day by inviting the grandparents of the students because grandparents are the pillars of the family their experience and knowledge are the backbone of the present generation.

The student coordinators of the club welcomed them with the invocation dance and skit. They also provided knowledge on government programs on legal and social benefits to elderly people. To cherish the grandparents simple and fun-filled games were conducted and also distributed prizes and gifts.
