Report on World Energy Conservation Day

World Energy Conservation Day is observed on December 14th every year to raise awareness about the importance of conserving energy and promoting sustainable practices in energy consumption. The day serves as a reminder of the global challenges related to energy consumption and the need for conservation efforts to ensure a sustainable future. It is very important to create awareness about saving energy for the upcoming generation and give knowledge about sustainable development. On the world Energy Conservation Day, the NSS committee conducted an activity to the theme 'SAVE ENERGY – USE PUBLIC TRANSPORT'. This event contributes towards conservation of energy. The main motive of this activity was to encourage staff and students to use the public transport system for that day. This event was very helpful to create awareness and tried the best possible way to save energy.
